started out as a proprietary computer-aided drafting program which replaced other CAD programs of its era, such as DraftSight, TDAI, PLATO and SPEA. In 1982, Autodesk released CADKEY, a simplified version of AutoCAD which could be used by hobbyists. Autodesk changed the name AutoCAD to AutoCAD LT in 1991. AutoCAD LT was later upgraded and changed to AutoCAD Design 2010. The AutoCAD Design 2007 program was launched in November 2006. This was the final release to use the old AutoCAD 2000 naming scheme of the previous versions; all subsequent releases have used the more current name, 'AutoCAD LT' or 'AutoCAD' in the new name scheme. AutoCAD LT 2011 was released in November 2010. The new program offers new features for drafting and rendering, and is also being marketed as a web-based solution.
