**Total Price: £8.00 Add-ons Download this app to add more routes for every railway simulator if you're a railway fan or you can download it to use it as a route choice app. 1 Review(s) for this app Old Railways May 28, 2017by Gav Excellent free app. The difficulty is finding a station between Aylesham and Bourne. I drove, ask your parents to drop you off at Bourne and ask a taxi to take you home. OldRailways August 25, 2016by Steven Great app, simple to use and good to plan your journeys using on a digital map. However please add backtrack to the back of the app, this I cannot use as I type very slowly. OldRailways May 27, 2016by Brian Gives a simply of the area between Ashford and Peterborough and connecting stations. A particular useful feature was the ability to specify whether you wanted a driver, with a pre-specified route, or a pre-specified destination and that to add a sort of easy way to record your journey. One shortcoming is a long term bug in the route planner in which a movement from mid-Leigh to central Manchester was banned. OldRailways November 23, 2014by Colin S This is a must have for train enthusiasts as it allows a digital route plan to be created. OldRailways November 15, 2014by David A very useful app and now is the time to invest in A4 paper to ensure you have a much more detailed train journey option than at present, if you like trains. OldRailways October 12, 2014by Peter I like trying to remember where I've stopped on the OSM map and this apps a nice touch. OldRailways October 11, 2014by Damien The best app of it's kind I've found. OldRailways September 20, 2014by Rich I mainly use the map to plan my journey and add a route which is quick to plan with a GPS sat nav system. OldRailways June 23, 2014by Nick D This is a really must have app for any train enthusiast! OldRailways May 15, 2014by Matthew A very good route planner. I**
