and easy to join. If you have used or developed with SourceForge and liked it, then why not join the
Developer Network on SourceForge.net, the largest network of software developers? SourceForge's
developer programs are designed to help you bring your ideas to life, at both an early and later
stage of development. By joining the SourceForge Developer Network you'll be able to use our
Developer Hub to find resources that will help you build, launch, promote and sell your products. We
also organise events where developers can interact with like-minded developers and contribute to
the source code repositories hosted on our server. Become a SourceForge Developer Today Join
today and you'll automatically be enrolled in the SourceForge Developer Network on the
SourceForge Website. How Do I Join the SourceForge Developer Network? All you need is a
SourceForge Developer Account to become a SourceForge Developer Once you have an active
SourceForge Developer Account Become a SourceForge Developer Add an Announcement (This
allows you to send messages to the SourceForge developer network) Add a New Project Create a
SourceForge project Update an existing project (Getting Started with SourceForge's Developer Hub)
Browse SourceForge Projects (Getting Started with SourceForge's Developer Hub) Subscribe to a

Project uses Angular 7. I've already migrated to Angular 9, and everything works fine. The animation files are present in angular-packages/core/src/animations /core I've created custom module called CoreModule and register it on AppModule import { NgModule, CUSTOM_ELEMENTS_SCHEMA, Injector } from '@angular/core'; import { CommonModule, CommonModuleCUSTOM_ELEMENTS } from '@angular/common'; import { FormsModule, ReactiveFormsModule, FormsModuleCUSTOM_ELEMENTS } from '@angular/forms'; import { KeychordModule } from 'ng-
